EDITORIAL NOTE.

I BEG to thank all Contributors, Subscribers and Advertisers to Volume 47 most sincerely, and I trust that any mistakes will be attributed to the abnormal worries caused by these very difficult times through which we are all passing. Volume 48 will contain Sections devoted to the Royal Academy Exhibitions of London and Edinburgh, besides which space will be given to illustrating Sculptures, Church Decoration and Stained Glass, Recent Competitions, and illustrations of Models of parts of Old London. This latter Section is included because, apart from all Historical and Architectural interest, I consider the material of great value from the Decorative point of view.

THE EDITOR.

J. F. PHILLIPS & SON

The PHILLIPS ACCELERATED system of low pressure HOT WATER HEATING permits of the BOILER being fixed at ANY LEVEL, irrespective of the levels of radiators and pipe coils.

The proved economy in first cost and maintenance, and the elimination of trenches and large main pipes obtained by adopting the PHILLIPS system has influenced many Architects and Engineers to entrust the design and equipment of their installations with us.

HEATING & DOMESTIC ENGINEERS

During the past thirty years a large number of contracts in different parts of the Country and Abroad have been carried out by us, and among the well-known buildings upon which we have been engaged may be mentioned—
